TOGETHER for healthy workplaces

Because healthy workplaces are more productive workplaces and as federal public service employees we want to provide quality public services to all Canadians.

Today we are saying **NO** to a government and employer that has contributed to our toxic workplaces and, to make matters worse, is now proposing a “go to work sick” plan.

TOGETHER...

... our unions are proposing measures to fix the toxic workplaces that contribute to illness and mental health issues

... we are advocating for measures to ensure that government decisions and policies are backed by solid science and real evidence

... we are identifying the gaps where public service employees no longer have the tools and resources they need to serve Canadians

... we are calling attention to outsourcing that will put privacy and security at risk and leave all Canadians holding the bill.

And, we are doing all this, and more, at the collective bargaining table!

Show your support for federal public service employees and the unions that represent them.

If you are a federal public service union member, contact your union representatives and ask them what you can do to support your bargaining team.

If you are a Canadian who relies on and expects to receive quality public services, tell your Member of Parliament that you support our efforts to make our workplaces more productive.
